Topic 06

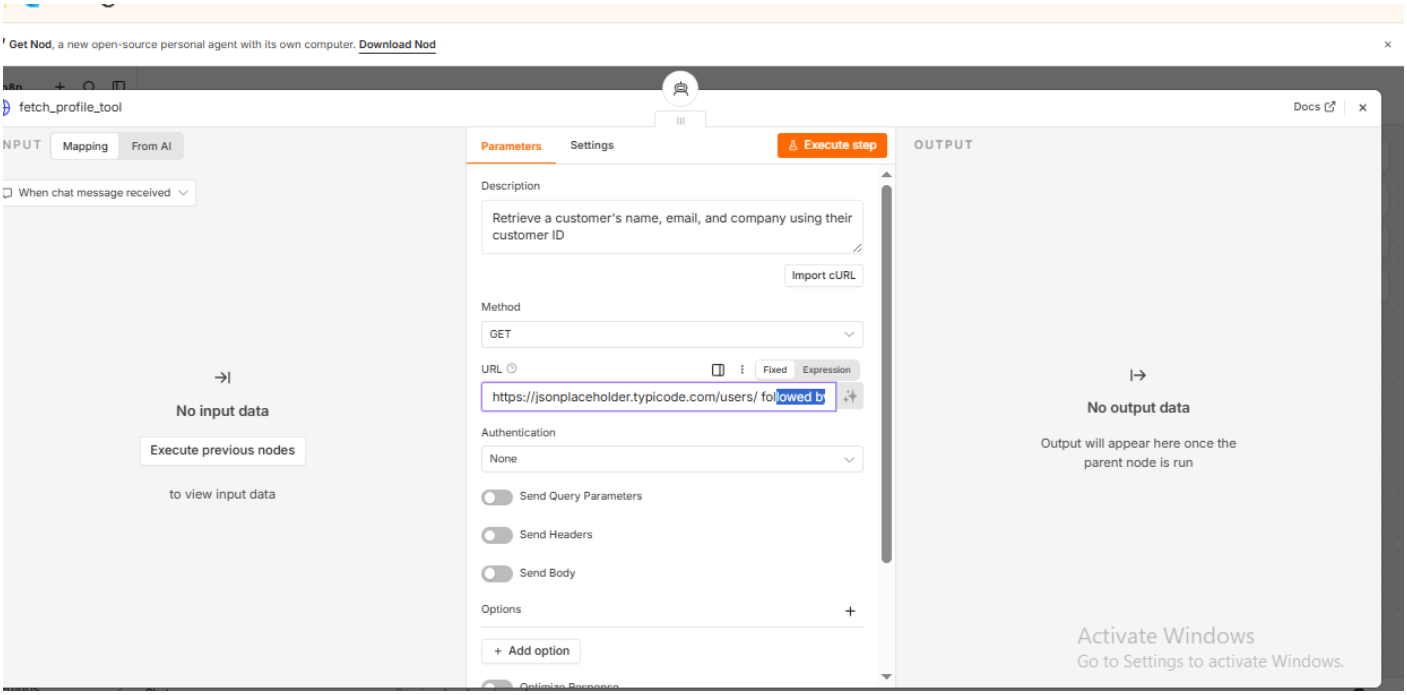

Building Custom Tools via Workflow, Code, and API Nodes

n8n AI Agent Advanced Hands-On Course

Evidence package | 12 November 2026

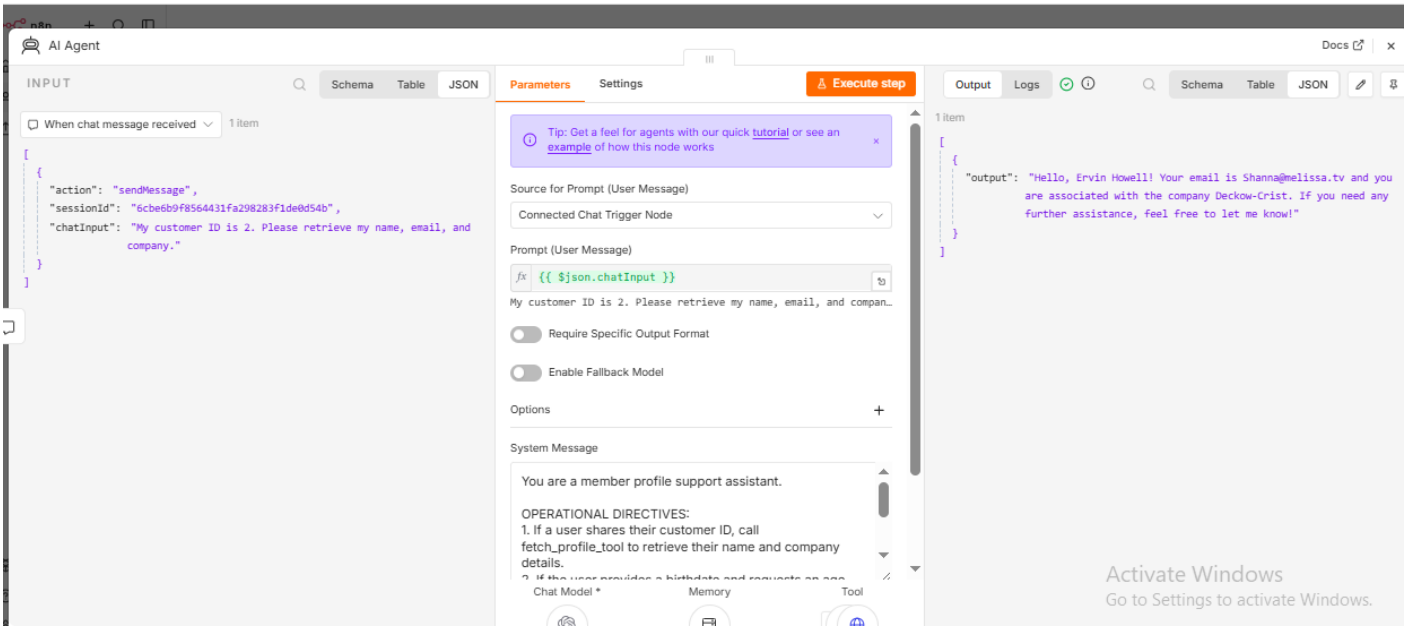

Demonstrated: profile lookup, age calculation, and successful multi-tool execution in a single agent run.

Evidence 1: HTTP Request Tool configuration

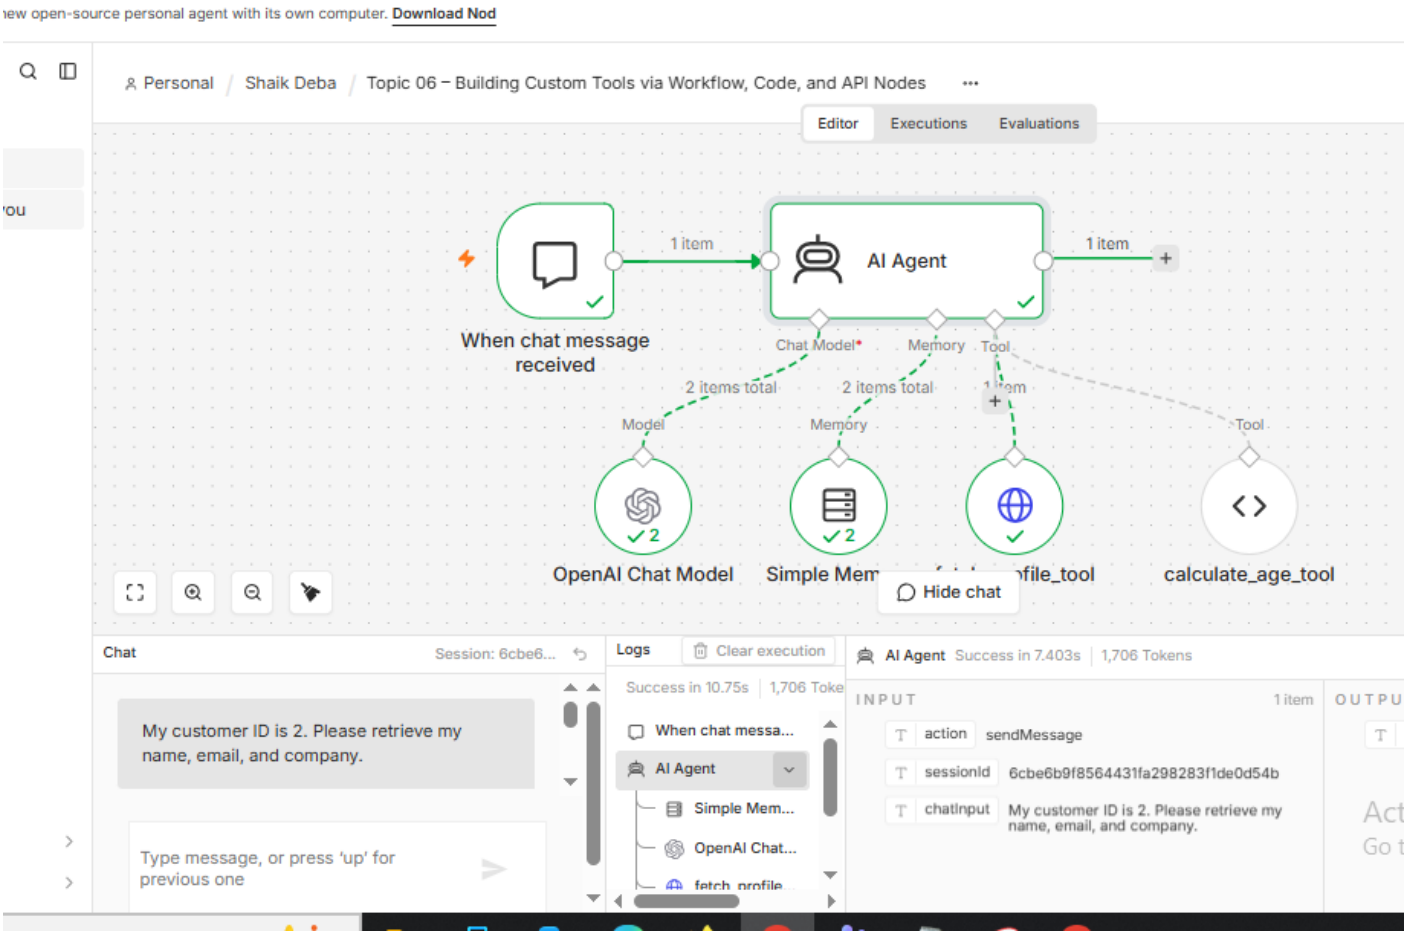

HTTP GET profile tool; URL field shown during configuration.

Evidence 3: Profile lookup output

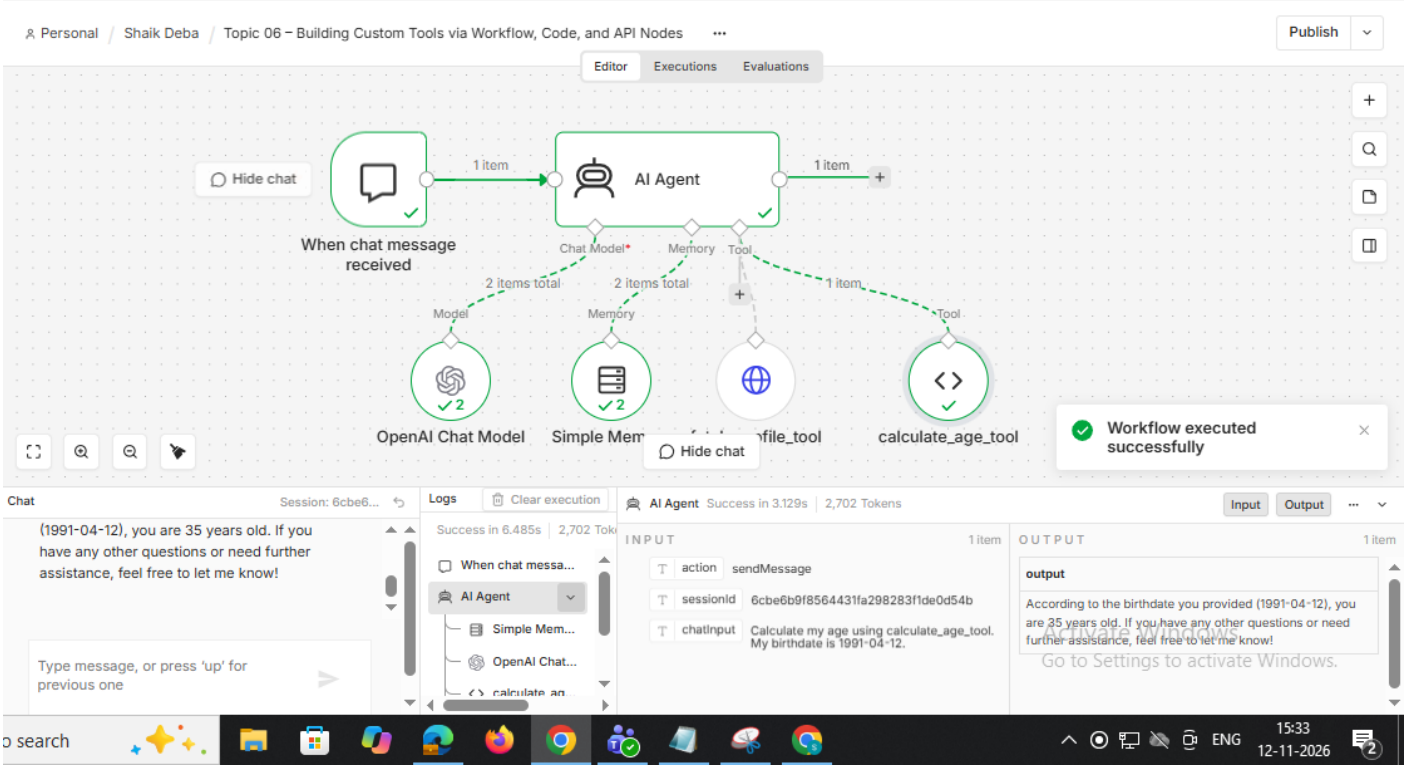

Customer ID 2 returns Ervin Howell, email, and company.

Evidence 4: Profile tool execution

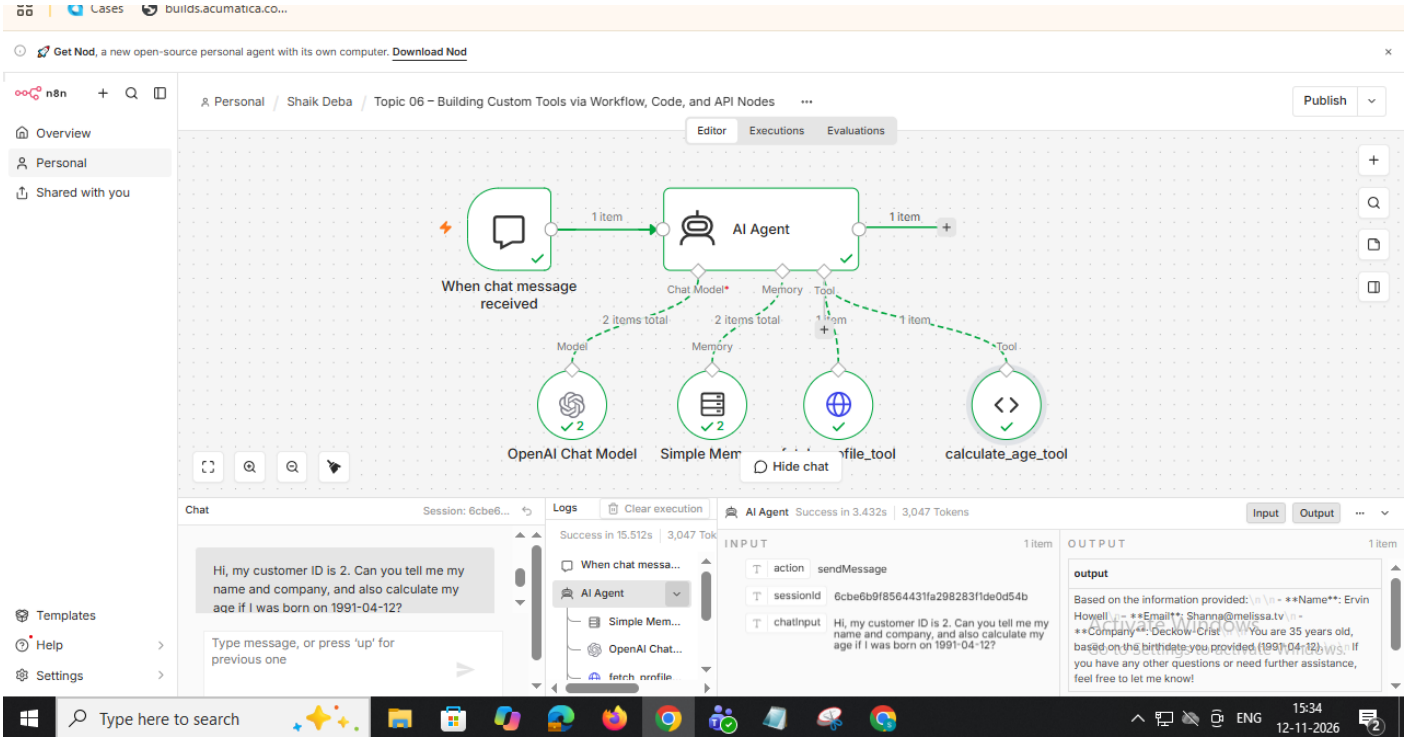

Successful n8n execution with HTTP tool highlighted.

Evidence 6: Age calculation test

Corrected Code Tool returns age 35; green execution check.

Evidence 7: Final combined multi-tool execution

Both tools executed in one workflow and agent returned a merged response.
